**Notes**

1. The power limit specified in column 4 refers to the maximum allowed power input to the antenna.
2. It is the responsibility of the operator/licensee to ensure that the National RF safety standards are met.
3. The word Secondary in column 3 indicates that:
  - a. The licensee may not cause harmful interference to stations of PRIMARY services to which frequencies are already assigned or to which frequencies may be assigned at a later date.
  - b. The licensee cannot claim protection from harmful interference from stations of PRIMARY service to which frequencies are already assigned or to which frequencies may be assigned at a later date.
  - c. The licensee can claim protection, however, from harmful interference from stations of the same or other secondary services to which frequencies may be assigned at a later date.
